

Nitric Oxide (NO) Protocol

Nitric oxide is a powerful neurotransmitter that helps blood vessels relax and improves circulation. It acts as a vasodilator, an antioxidant, and kills bacteria in the airways. Nasal breathing produces NO and is how we're supposed to be breathing.

Most of us do not produce enough nitric oxide and our ability to do so naturally decreases as we age.

Adding a nitric oxide protocol into your health and wellness regimen has great benefits!

INSTRUCTIONS for taking NO₂U lozenges + Berkeley capsules

In the morning:

1. Dissolve 1 lozenge in your mouth, ideally on an empty stomach.

- Place one lozenge in mouth. Continually move it around your mouth with your tongue, keeping the lozenge above the tongue, until completely dissolved.
- Swallow your saliva as the lozenge is dissolving.
- The lozenge takes 20 minutes to get into the circulation.
- The results received per lozenge would last 2 - 3 hours if your tested level of NO is depleted
- Results will last 6 - 8 hours if tested level is optimal.

2. Take 2 Berkeley capsules swallowed with water.

- The capsules take 1.5 hours to kick in and could be taken with the lozenge or later in morning.

3. For optimum absorption of your personal supplements, wait 1 hour after taking the nitric oxide boosters (due to better vascular tone).

Between 3 and 7pm:

- 4.** Take an additional lozenge.

NOTES:

- The nitric oxide boosters, when taken correctly, do not affect people negatively with low blood pressure.
- Taking the following supplements 1 hour after taking the nitric oxide boosters may enhance results: Vitamin D3, vitamin K2/K7, magnesium glycerate and the supplement called Arterosil.
- If you are experiencing stress or are immunocompromised, you can take 3-4 individual lozenges spread out throughout the day.
- If you have high blood pressure, you can take an additional lozenge when you feel the blood pressure spike.

NO₂U NITRIC OXIDE LOZENGE

Dietary Supplement for Daily Health and Circulation Support

Description

Developed by Dr. Nathan S. Bryan, the world's leading expert on Nitric Oxide production, this nitric oxide generating supplement is specially formulated to rapidly help boost production in the body. It works to support the body's natural Nitric Oxide production and provides a source of N.O. as it is dissolving in the mouth.

This innovative formula uses an advanced delivery system that provides an external source of nitric oxide that may support the following:

- Improve Nitric Oxide production.
- Enhance oxygen and nutrient delivery to cells.
- Support cardiovascular health.
- Aid normal heart function.
- Support healthy blood circulation and blood pressure.
- Create healthy blood flow to the brain and other organs.
- Deliver antioxidant support.
- Support cognitive function and memory.

NO₂U is backed by 20+ years of research and technology from an internationally recognized biochemist and physiologist, Dr. Bryan, who was the first to discover natural product chemistry for the production of nitric oxide. The result of his research is the most powerful Nitric Oxide enhancer on the market!

*No Animal Testing – Gluten Free – Vegan – Paleo and Keto
Friendly – Dairy Free – Soy Free*

Key Benefits

Better Nitric Oxide Production, Better Health Overall

Few things have as dramatic an impact on your health than Nitric Oxide. It's been called a "miracle molecule" given its profound effect on cardiovascular health and delivery of oxygen and nutrients to all cells.

As a contributor to over 100+ research studies and breakthrough discoveries involving Nitric Oxide, Dr. Nathan S. Bryan fully understands the benefits of enhanced N.O. production. But more importantly he knows how to boost production in the body using natural, safe ingredients.

NO₂U was developed to support circulatory health in men and women at every stage in life, because decreased Nitric Oxide production is a problem that affects us all. By boosting N.O. production, the NO₂U supplement may support the following:

- Increase oxygenation in the blood.
- Promote artery dilation to help improve blood circulation and blood pressure.
- Support arterial health.
- Enhance blood flow throughout the body.

"Loss of nitric oxide production is recognized as the earliest event in the onset and progression of most, if not all, chronic diseases, including the number one killer of men and women worldwide—cardiovascular disease." —Dr. Nathan S. Bryan

Nutrition & Ingredients

The Science Behind the NO₂U Proprietary Blend

Dr. Bryan has been at the forefront of Nitric Oxide research for over two decades. His research has led to the development of safe bioactive products that have the ability to restore Nitric Oxide production. Building off of his previous discoveries, Dr. Bryan has created the new proprietary NO₂U formula.

This proprietary blend of ingredients generates Nitric Oxide gas, addressing various issues that limit N.O. in the body.

Safety and Storage Information

Consult with your doctor before use if you are:

- Pregnant
- Nursing
- Taking medication
- Taking organic nitrates
- Taking phosphodiesterase inhibitors
- Having difficulty swallowing
- Diagnosed with a medical condition

Discontinue use if you experience dizziness or fainting, which could be the result of low blood pressure.

NO₂U should be stored in a dry place that's kept at room temperature. Keep the container tightly closed at all times and never use if the clear seal is broken or missing prior to purchase. NO₂U is for adult use only. Always store in a place that is out of the reach of children.

The supplements may change color over time naturally, but this in no way alters the effectiveness of the product.

BERKELEY LIFE PROFESSIONAL NITRIC OXIDE SUPPORT

Clinically Tested Nitric Oxide Support Supplement

Description

Berkeley Life Professional provides a plant-based equivalency of dietary nitrate that would be found in beet juice and leafy greens to provide nitric oxide support for a healthy circulatory system.*

Berkeley Life Nitric Oxide Support Supplements:

- Provide a plant-based equivalency of nitrate that would be found in beet juice and leafy greens to provide nitric oxide support for a healthy cardiovascular system*.
- Nitrate rich proprietary blend is fortified with Potassium Nitrate (KNO₃), Beetroot Extract, Organic Fermented Beetroot Powder and enriched with Vitamin C, Thiamin (Vitamin B1), Vitamin B12, Magnesium and Potassium.
- Developed to provide a host of benefits including maintaining healthy blood pressure levels and energy levels.

BERKELEY LIFE NITRIC OXIDE SALIVA TEST STRIPS

Clinically Used Nitric Oxide Test Strips

Description

Our patented, non-invasive, saliva-based test strips allow patients to indicate nitric oxide status in 15 seconds.

Berkeley Life Nitric Oxide Saliva Test Strips were specifically designed to indicate salivary nitrite levels, a proven precursor to Nitric Oxide levels in the body.

Use before and after a nitrate rich meal or supplement.

Directions for Use

- Place the test strip with the “saliva here” side on your tongue and hold for 5 seconds.
- Fold the strip over and gently press the two sides together and hold for 10 seconds.
- Separate and compare your results using the Berkeley Test Nitric Oxide Scale on the side of the package.
